U. S. A.

Pods, Natural Size, of

THE NEW "BURPEE-IMPROVED" BUSH LIMA.

W. ATLEE BURPEE & CO., PHILADELPHIA, U. S. A.
Cable Address: BURPEE, Philadelphia.

Advance Wholesale Prices for 1910,—of The Best “Seeds that Grow!”

PHILADELPHIA, November 6, 1909.

Terms of Credit.—To regular customers and well-known houses of established credit, all bills bought from this catalog are due June 1st, without regard to date of purchase, excepting Beans, Corn and Peas, on which terms are (except when included in a general order) sixty days net or subject to a discount of one and a half per cent. for cash within ten days of date of invoice.

 Bills purchased **on special quotations**, made by letter or telegram, are *net* sixty days from date of invoice, or subject to a discount of one and a half per cent. for cash within ten days of date of invoice. Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.  For cable words for Quantities and Prices,—see our General Wholesale Catalog or 5th Edition A. B. C. Code.

Cash Discount.—We allow a discount of **Five Per Cent.** on orders (at printed prices) accompanied by a cash remittance, and also on all bills, except where Beans, Corn and Peas only are ordered (at catalog prices) paid within ten days from date of invoice.

The Prices Quoted are those ruling at this date. We expect to adhere to these prices until the issue of our January catalog, except where important changes compel us to make advances or reductions, when we shall be governed by the market. **10 lbs. and more are supplied at the rates per 100 lbs.; $\frac{1}{2}$ lb. and $\frac{1}{2}$ bushel at pound and bushel rates; but smaller quantities will be charged at a slightly higher rate.**

NO CHARGE for Packing or Cartage.—Bags and boxes are charged *at Cost*. After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases.

W. ATLEE BURPEE & CO., PHILADELPHIA.

“READY FOR THE MAIL.”—This wagon-load of Mail-Sacks contained 22,334 copies of our Retail Catalogs (each costing 4 cts. postage),—mailed in one day, January 8, 1909. Since this photograph was taken we have purchased (in May, 1909) all the property north of us on York Avenue (as shown above) and also on North Fifth to Buttonwood Street. Besides the seven-story BURPEE BUILDING (erected in 1898) and our other buildings to the south, this gives, on these three broad streets, an additional frontage of two hundred and eighty feet. There is now room for still further growth of the Burpee-Business in **QUALITY SEEDS!**

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

 This list cancels all previous quotations. It is always advantageous to place your orders early, as sometimes disappointments occur through delay. Please use telegraph cipher ONLY for telegraphic or cable orders.

Lima Beans are largely grown for use as *dried beans* in winter and are to be found on sale at almost every grocery store. These "*Commercial Beans*" are produced cheaply, as they are grown like an ordinary field crop. SEED LIMA BEANS cost considerably more to grow, as the crops are especially cultivated, while the stock must be carefully watched and rogued to keep them *true to type*. Some seasons, unfortunately, many commercial limas are sold for seed purposes.

Peas are Scarcer than has ever been known before! Most varieties of Garden Peas were nearly complete failures in America. From our intimate acquaintance and personal inspections of stocks grown in England (although the crops there were also distressingly short), we have succeeded in making up most of our normal requirements. The prices paid, in most cases, have been double the usual cost of production, so that even with the higher prices quoted this season our margin of profit is less than half what is usually considered necessary and fair. Without a cent of profit (and we have very few cents on peas this year) we prefer to protect our regular customers in supplying their usual requirements.

 You should be more than usually careful this season of whom you purchase Seed Peas. The "great famine" will bring to market, doubtless, many old and inferior stocks that would be dear at any price!

New Sweet Pea,—King Edward Spencer.

This sterling novelty is the nearest approach in color to the popular *King Edward VII* in the waved or Spencer type. The enormous flowers come almost uniformly waved and crinkled to a pronounced degree. The standard measures from one and three-quarters to two inches across by one and one-quarter inches deep; the wings are one and three-eighths inches wide by one and one-quarter inches long. The unusually large wings make the flowers appear truly *gigantic in size*. The standard is a deep rich carmine-scarlet of glossy effect. The wings are also carmine-scarlet and on the reverse side are of a deep rosy carmine. The stems are twelve to fifteen inches long and frequently carry four fine blooms, while the majority bear three flowers.

The stems are thick and heavy, the vines vigorous and thrifty.

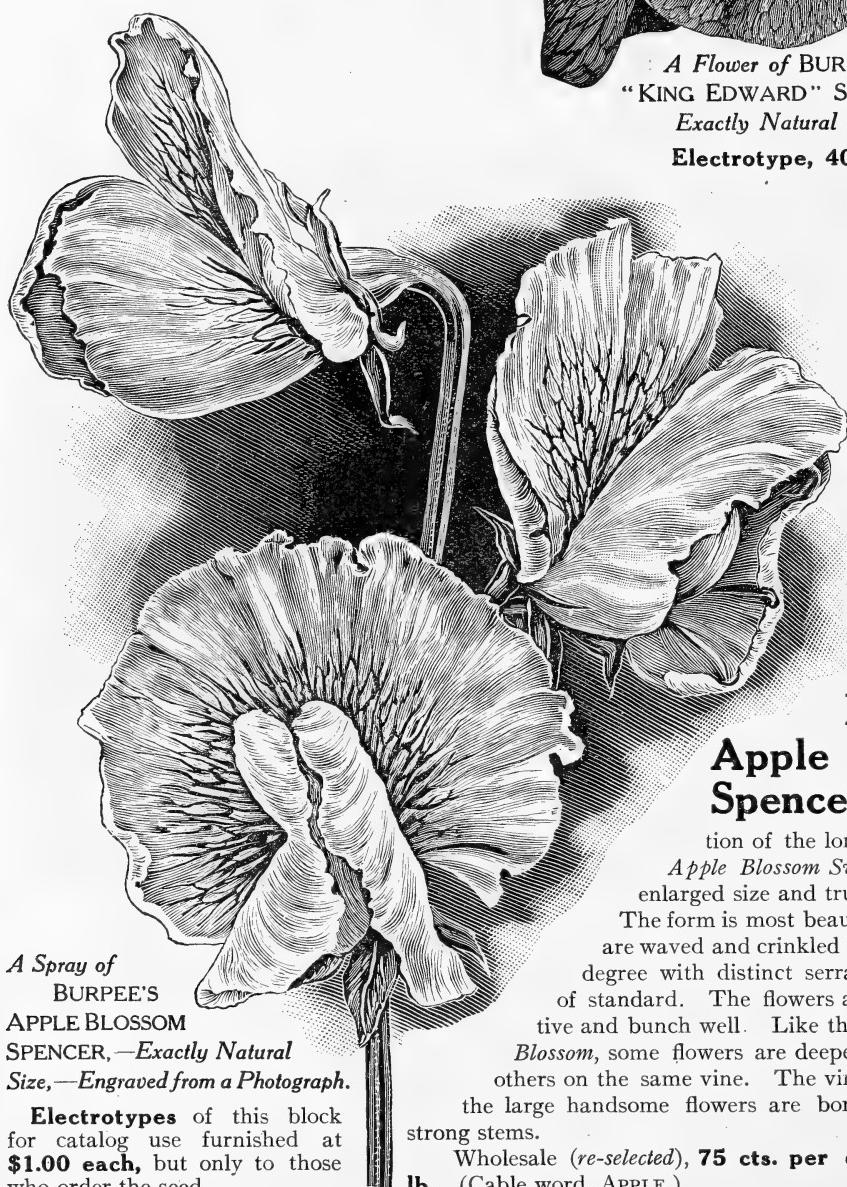

Wholesale Price, 90 cts. per oz.; \$9.00 per lb. (Cable word, JEHU.)

*A Flower of BURPEE'S
"KING EDWARD" SPENCER.*

Exactly Natural Size.

Electrotype, 40 cts.

*A Spray of
BURPEE'S
APPLE BLOSSOM
SPENCER.—Exactly Natural
Size,—Engraved from a Photograph.*

Electrotypes of this block for catalog use furnished at **\$1.00 each**, but only to those who order the seed.

Burpee's Apple Blossom Spencer.

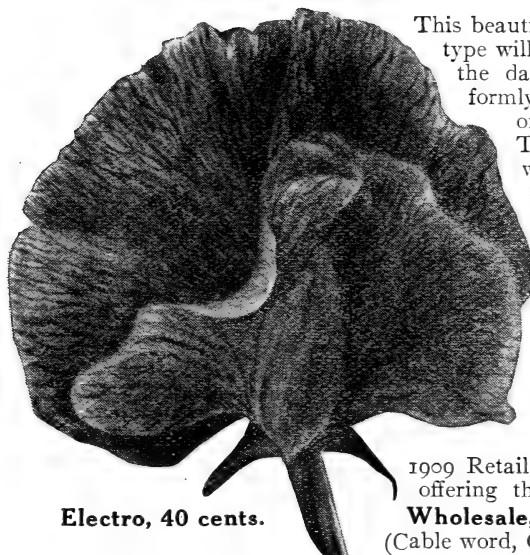

This is a reproduction of the long-time popular

Apple Blossom Sweet Pea, but of enlarged size and true Spencer type.

The form is most beautiful; the petals are waved and crinkled to a remarkable degree with distinct serrations on edges of standard. The flowers are most attractive and bunch well. Like the original *Apple Blossom*, some flowers are deeper in color than others on the same vine. The vine is thrifty and the large handsome flowers are borne upon long, strong stems.

Wholesale (re-selected), 75 cts. per oz.; \$7.50 per lb. (Cable word, APPLE.)

New Sweet Pea,—Othello Spencer.

Electro, 40 cents.

This beautiful new Sweet Pea of the true Spencer type will appeal to those having a preference for the darker colors. The flowers come uniformly true to type, being beautifully waved or crinkled both in standard and wings. The stems are thick and long and carry well either three or four fine blooms of a rich deep maroon. It is a strong grower and the intensely dark-colored flowers contrast well with the lighter shades already introduced. Unfortunately, while a most profuse bloomer, OTHELLO SPENCER is an unusually shy seeder,—consequently we can give only "ten seeds for a quarter" [“A quarter” is 25 cts. or one shilling.]

Above is description repeated verbatim from our 1909 Retail Catalog. We have pleasure now of offering the seed to the trade, on early orders.

Wholesale, 90 cts. per oz.; \$9.00 per lb.

(Cable word, OTHELLO.)

Aurora Spencer.

This is an exact counterpart as to color of Burpee's Aurora Sweet Pea, which has been so long considered the best of all the striped and mottled varieties; it differs only in size and character of the flowers. The superbly beautiful flowers are of really enormous size, and come uniformly of the true "Spencer" type. Both standard and wings are waved or fluted to a most pronounced degree. The magnificent flowers are produced most profusely in threes and fours, well placed on the end of long, stiff, dark-green stems. The ground color of the flower is a cream-white, and this is exquisitely flaked and mottled with rich orange-salmon. It bunches beautifully.

In sealed packets containing fifteen seeds each: Per pkt. 15 cts.; \$1.00 per doz. pkts.; \$7.00 per 100 pkts. In lots of 500 pkts. or more, \$6.25 per 100 pkts. (Cable word, FLAKED.)

In sealed packets containing thirty seeds each: Per pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts. In lots of 500 pkts. or more, \$12.50 per 100 pkts. (Cable word, AURORA.)

AURORA SPENCER,—Electrotype 65 cents.

New Sweet Pea,—W. T. Hutchins.

A fine, bold, true Spencer of most perfect form and coloring. The buds show a decided buff color. The fully expanded flower has the appearance of light apricot (distinctly lemon at the throat), overlaid with a beautiful blush pink. As the season advances the blush pink shading becomes rather more pronounced.

In sealed packets containing six seeds each: Per pkt. 15 cts.; \$1.00 per doz. pkts.; \$7.00 per 100 pkts. In lots of 500 pkts. or more, \$6.25 per 100 pkts. (Cable word, WILLIAM.)

In sealed packets containing thirteen seeds each: Per pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts. In lots of 500 pkts. or more, \$12.50 per 100 pkts. (Cable word, HUTCHINS.)

Spencer Sweet Pea,—“Marie Corelli.”

This grand novelty was known in the field as “PRINCE OF WALES SPENCER” and was so called in our advance July circular. The coloring differs considerably, however, from the grandiflora *Prince of Wales*, so that it is deserving of a new name among Sweet Peas.

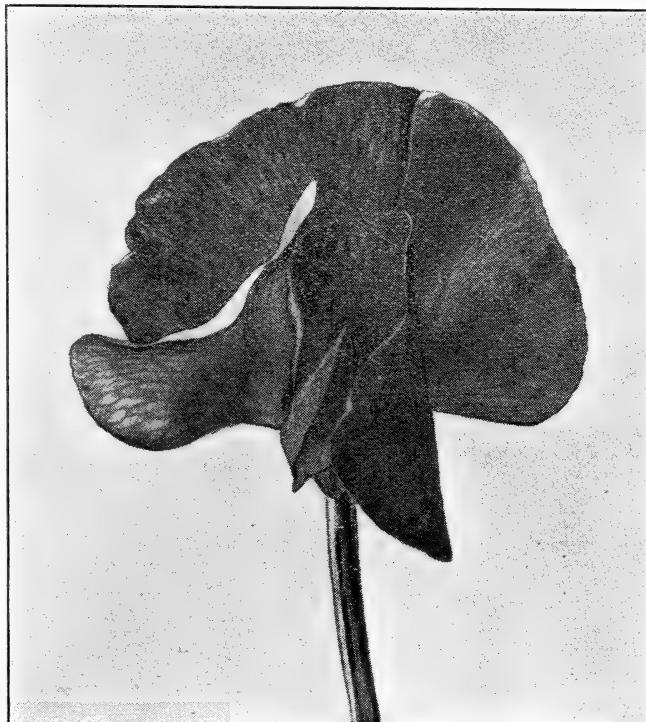

With the kind permission of the famous English authoress, MISS MARIE CORELLI, we have named it in her honor, and predict that it will become relatively as popular as are her delightful books.

“Marie Corelli” in trials both in England and at Fordhook, was pronounced by Sweet Pea experts as being in the fore rank of distinct Spencer novelties. It is a great advance on the only variety that is at all near it, —*Marjorie Willis*,—being much brighter in color and more vigorous in growth. The large flowers are brilliant rose-carmine or red and uniformly of true Spencer form. The wings are a pure rich rose-crimson, while the standard shows a tint of cherry-red. The whole effect is that of a brilliant crimson,—clear, distinct and most beautiful. The standard is large, round and wavy; the wings are full and inclined to remain boldly upright instead of drooping.

The long strong stems usually bear four flowers each. The plant is of strong growth and very free flowering. MARIE CORELLI is a variety that belongs in all first dozen sets and will become one of our standard shades in Spencers.

In sealed packets containing ten seeds each: **Per pkt. 15 cts.; \$1.00 per doz. pkts.; \$7.00 per 100 pkts.** In lots of 500 pkts. or more, **\$6.25 per 100 pkts.** (Cable word, MARIE.)

In sealed pkts. containing twenty seeds each: **Per pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts.** In lots of 500 pkts. or more, **\$12.50 per 100 pkts.** (Cable word, CORELLI.)

NEW SPENCER,—“MARIE CORELLI,”—Electrotype 65 cents.

Sweet Pea,—

Miriam Beaver.

This seedling bore the field name of "Dark Apricot and Straw."

The original beauty stood out in bright array and was then and there christened with an appropriate new name, as it is not a shade known before in the grandiflora or Eckford types.

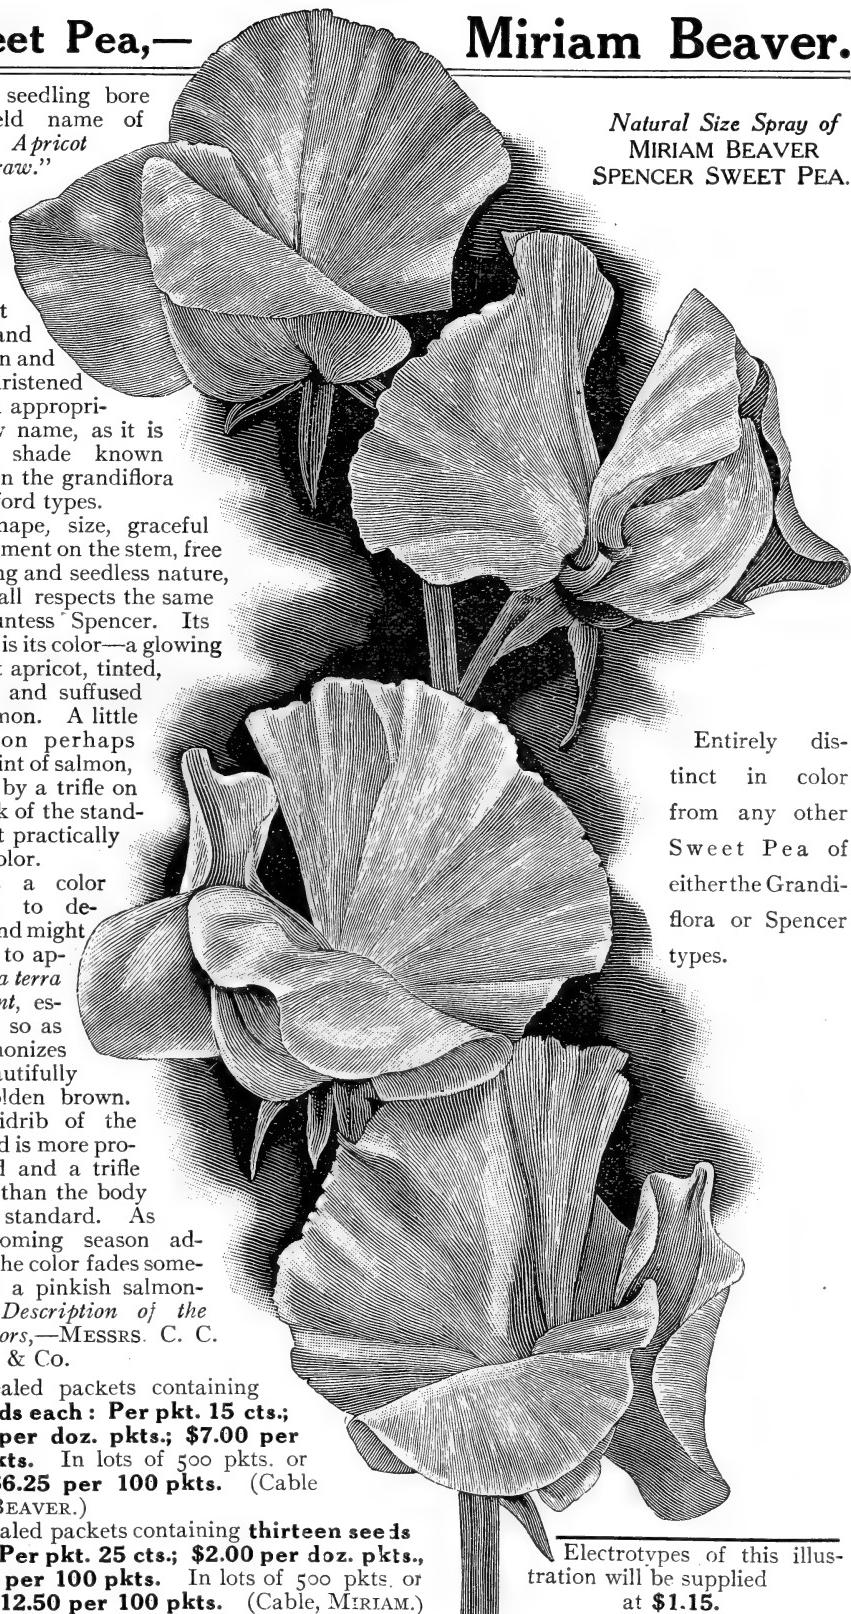

In shape, size, graceful arrangement on the stem, free blooming and seedless nature, it is in all respects the same as Countess Spencer. Its novelty is its color—a glowing but soft apricot, tinted, shaded and suffused with lemon. A little variation perhaps with a tint of salmon, deeper by a trifle on the back of the standard, but practically a self color.

It is a color difficult to describe and might be said to approach a *terra cotta tint*, especially so as it harmonizes so beautifully with golden brown. The midrib of the standard is more pronounced and a trifle deeper than the body of the standard. As the blooming season advances the color fades somewhat to a pinkish salmon-buff.—*Description of the originators*,—MESSRS. C. C. MORSE & CO.

In sealed packets containing **six seeds each**: Per pkt. 15 cts.; \$1.00 per doz. pkts.; \$7.00 per **100 pkts.** In lots of 500 pkts. or more, **\$6.25 per 100 pkts.** (Cable word, BEAVER.)

In sealed packets containing **thirteen seeds each**: Per pkt. 25 cts.; \$2.00 per doz. pkts., \$13.75 per 100 pkts. In lots of 500 pkts. or more, **\$12.50 per 100 pkts.** (Cable, MIRIAM.)

*Natural Size Spray of
MIRIAM BEAVER
SPENCER SWEET PEA.*

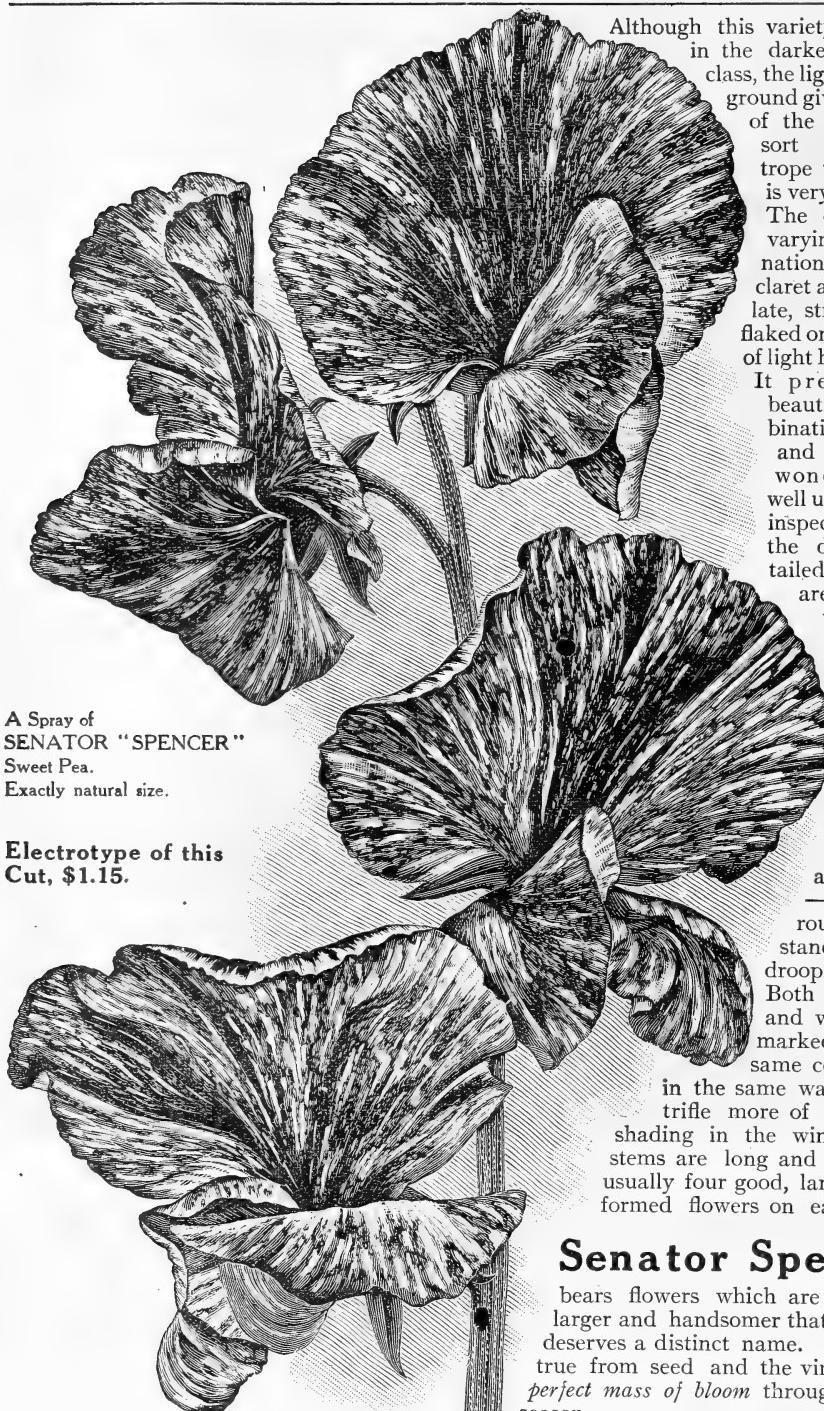

Entirely distinct in color from any other Sweet Pea of either the Grandiflora or Spencer types.

Electrotypes of this illustration will be supplied at **\$1.15.**

"Marie Corelli." For description of this beautiful New Spencer,—see page 22.

New Sweet Pea,—Senator Spencer.

A Spray of
SENATOR "SPENCER"
Sweet Pea.
Exactly natural size.

Electrotype of this
Cut, \$1.15.

Although this variety belongs in the darker colored class, the lighter background gives a mass of the blooms a sort of heliotrope tint which is very pleasing. The color is a varying combination of deep claret and chocolate, striped and flaked on a ground of light heliotrope. It presents a beautiful combination of tints and shows up wonderfully well under close inspection as the dainty detailed markings are most attractive.

SENATOR SPENCER is of the true Spencer form—wavy edges on both standard and wings, —large, round, fluffy standard, long drooping wings. Both standard and wings are marked with the same colors and in the same way, with a trifle more of the wine shading in the wings. The stems are long and there are usually four good, large, finely formed flowers on each stem.

Senator Spencer

bears flowers which are so much larger and handsomer that it almost deserves a distinct name. It comes true from seed and the vines are a perfect mass of bloom throughout the season.

In sealed packets containing **ten seeds each**: Per pkt. 15 cts.; \$1.00 per doz. pkts.; \$7.00 per 100 pkts. In lots of 500 pkts. or more, \$6.25 per 100 pkts. (Cable word, SENATE.)

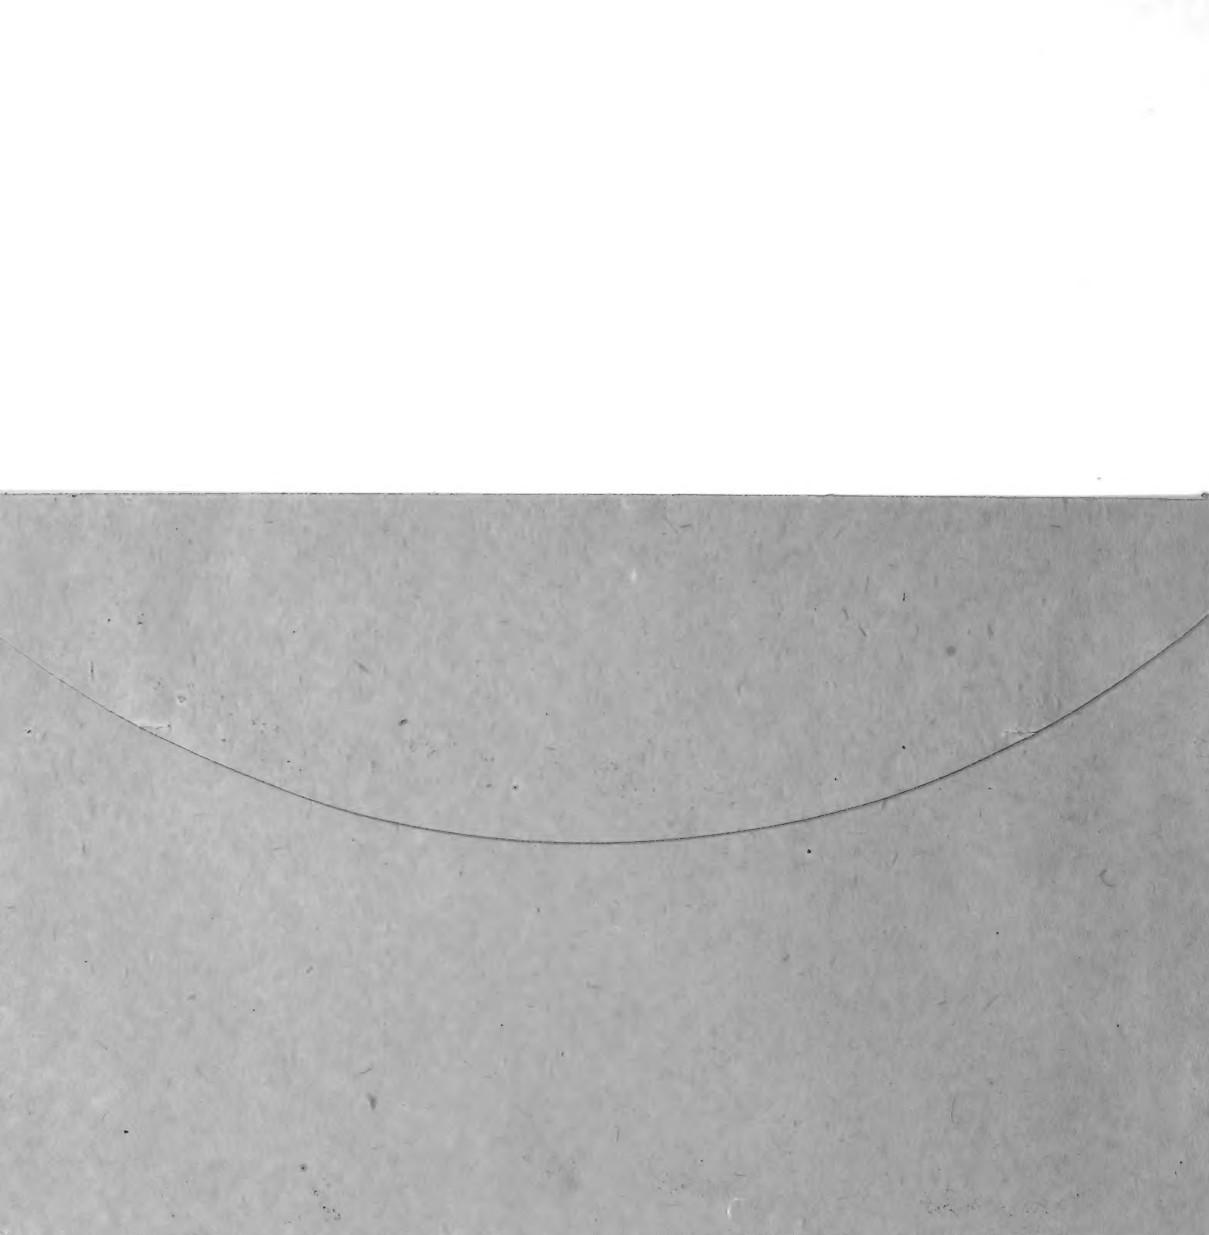

In sealed packets containing **20 seeds each**: Per pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts. In lots of 500 pkts. or more, \$12.50 per 100 pkts. (Cable word, SENATOR)

Philadelphia, Pa.

Three Pods, Natural Size, reproduced from a Photograph of the Unique FORDHOOK BUSH LIMA.

Fordhook Bush Lima Bean.

The *only* stiffly erect Bush form of the popular "Potato" Lima!

Fordhook Bush Lima is *altogether unique*. Of strong erect true bush-like growth (never prostrate or running), the bushes average twenty to thirty inches in height by twenty to twenty-four inches across the top. The pods resemble those of the Kumerle, Thorburn or Dreer's Bush Lima, but average *more than double the size*, measuring from four to five and one-half inches long, about one and a quarter inches wide, by as much as three-quarters of an inch thick.

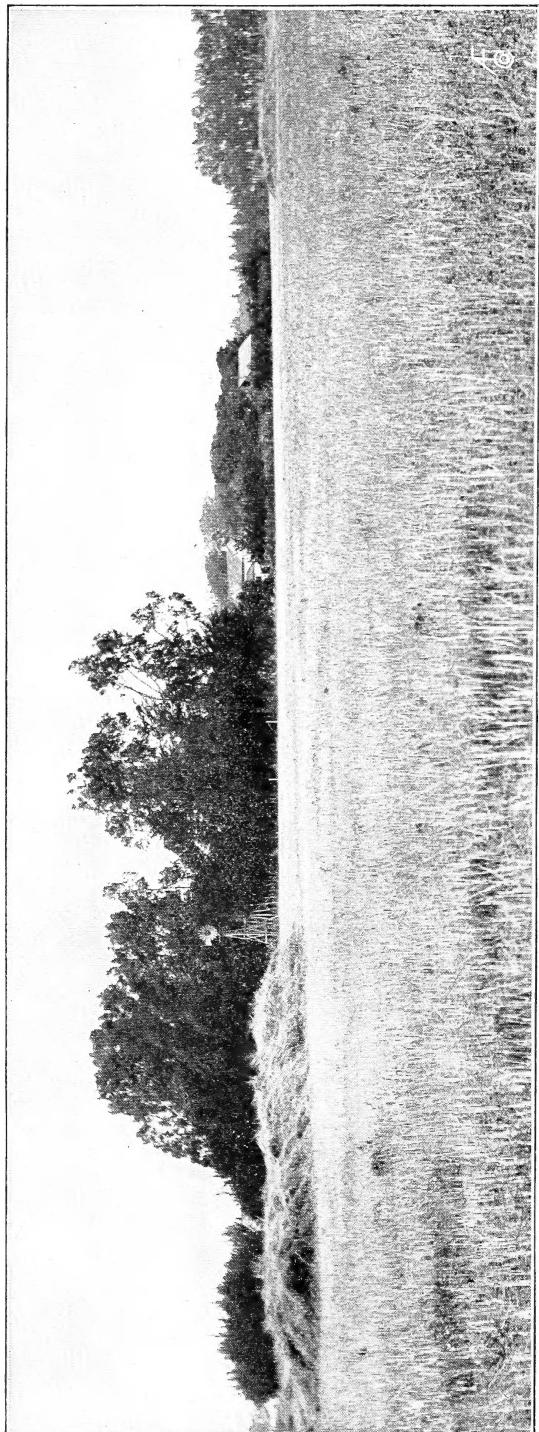

Advance Wholesale Price: **Per bushel \$7.50; 10 bushels or more at \$7.25 per bushel.**

 Please remember—should you forget our full firm name, that it is sufficient to address simply,—either letter, telegram, or cable message,—

Burpee, Philadelphia

Another Seed Farm for Burpee.

A brief telegram from California to Philadelphia last week disclosed two important items of news which are of general interest to the trade. The telegram was from H. M. Earl, manager for W. Atlee Burpee & Co., the Philadelphia seeds-men, and ran:

"Have purchased Lompoc Ranch. Lonsdale delighted. Suggest calling it Floradale."

There have been rumors of a new move of some kind in the atmosphere of the seed trade all summer, but there need no longer be any guessing about the matter, as this telegram announces an accomplished fact.

It also discloses the second interesting item of news, namely, the selection of Edwin Lonsdale to superintend the new venture. As everybody knows Mr. Lonsdale, it is almost superfluous to mention that he is a horticulturist of long experience and distinction. He was a graduate of the best kind of a gardening school—the big private estates of the English nobility in his boyhood, and as a young man practiced his profession in the eastern states and in California, before finally going in to commercial rose growing and other specialties of the trade at Philadelphia. He retired from this some five years ago to take charge of the gardens, grounds and conservatories at Girard College. Messrs. Burpee are to be congratulated in being able to induce Mr. Lonsdale to again enter the field of strenuous business life. He is just the man for a seed farm where selection and improvement of seed stocks are to be a main object. His mind has always had the scientific and investigating bent and this, with long training and experience, a keen eye, and a tremendous memory, makes him the ideal for the new proposition.

While sweet peas will be a leading feature, all flowers and vegetables that reach their greatest perfection in California will be handled. To put it briefly, the policy will be, with some exceptions, the production of the enormously expensive "stock seeds" which have to be contracted out to other seed farmers in different parts of California. These "seed stocks" have to be kept up to the utmost purity of type by extraordinary vigilance—so much so as to put them quite out of the question when compared with ordinary commercial prices which the farmer or gardener can afford to pay; but which are absolutely necessary as the antecedent of the reliable seeds a first-class house sends out.—*From HORTICULTURE, Boston, Mass., October 2, 1909.*

 The illustration made from a photograph was kindly sent us by the Editor of THE AMERICAN FLORIST, Chicago, Ills., where it appeared in issue of October 9, 1909.
